

## **CITI -Collaborative Institutional Training Initiative Requirements for Research at BayCare**

*All PIs doing research needs to have some type of CITI training done. The training may vary depending on the type of research that they are doing*

**HUD Implant -Doctor(s) Only** Also; if any doctor is implanting a humanitarian device outside of an emergent use, they will also need to complete the CITI (Humanitarian Use Device) Optional Module; Found under **GCP for Clinical Trials with Investigational Drugs and Medical Devices (U.S. FDA Focus) – GCP**

- **Oncology Drug Research (NIH, NCI, COG, Alliance, SCOG) others**

Biomedical Research (13) Courses

Conflict of Interest (2) Courses

GCP For Clinical Trials with Investigational Drugs and Medical Devices (U.S. FDA Focus) (13) Courses

- **Any NCI research**

Biomedical Research (13) Courses

Conflict of Interest (2) Courses

GCP For Clinical Trials with Investigational Drugs and Medical Devices (U.S. FDA Focus) (13) Courses **Or if needed** GCP For Clinical Trials with Investigational Drugs and Medical Devices (**International** GCP Focus) (13) Courses

- **Drug or Device Research**

Biomedical Research (13) Courses

Conflict of Interest (2) Courses

GCP For Clinical Trials with Investigational Drugs and Medical Devices (U.S. FDA Focus) (13) Courses **Or if needed** GCP For Clinical Trials with Investigational Drugs and Medical Devices (**International** GCP Focus) (13) Courses

- **Social and Behavioral Research**

Biomedical Research (13) Courses

Under Biomedical - The Electives (First one only)

Under Biomedical- Optional Modules (whatever pertains to type of research proposal submitting)
